Hi Tim,

Yes, Nick mentioned documentation in Progress reports and notes from steering committee meetings. I think I also mentioned these are SKB internal documents, and thus only available at the SKB office. This fact was also given to the SSM before the meeting.

Sorry not to be able to send the documents.

Best regards,  
Christina

Hi Christina

We are in the process of documenting our findings from our QA review of the MiniCan experiment. During the meeting on 10 March, Nick Smart mentioned that he had produced annual project reports for you and that the project was guided by an expert advisory group, which had met twice (in 2005 and in 2009). In order for help our review, would it be possible for you to send us the annual reports and the records from the expert advisory group meetings?

Best regards

Tim
