Dear Dr. Lantz!

Herewith please find answers to your inquiry.

- \* Prof. Christopher Busby is not a member of the Latvian Academy of Sciences (LAS);
- \* It is to acknowledge that Prof. Busby has no relation to the LAS;
- \* The members of the LAS are not involved in formal collaboration with Prof. Busby; Yet, at least one our Academy member (physicist) confirmed that he knows prof. Busby;
- \* As the LAS manages a 17-storey building and in recent years has quite many free rooms, they are rented for offices and a small company with prof. Busby as the Board member, has an office in the building of the LAS; This small company has actually no relation to the LAS - no services etc.
- \* Prof. Busby has once given a lecture in the Meeting hall of the LAS, yet it was not an event organized by the LAS itself.
- \* If necessary, you can gather more information from Ms. Ditta Rietuma. She told that she would be happy to explain you more in detail the activities of "Environmental Research, Ltd."

Kind regards,

--

Citējot Mattias Lantz <[Mattias.Lantz@physics.uu.se](mailto:Mattias.Lantz@physics.uu.se)>:

Dear Madam or Sir,

For some time, a certain Christopher Busby, claims to have the Latvian Academy of Sciences as a professional address, see for instance in his CV dated November 2013: <http://www.llrc.org/misc/subtopic/cvbusby.pdf>

I wonder if you could enlighten me on Busby's standing with the academy. For instance:

- \* Is he a member of the academy? If yes, since when and in which division? Is he a regular member or does he have any other sort of position?
- \* If not, does he have any other relation with the academy? Is there any salary payed to him, or any other monetary compensation for any sort of services?
- \* Is there any office or other space made available for him at the academy?
- \* Has there been any seminars or other activities at the academy where Busby has been involved?
- \* Is there any formal scientific collaboration between members of the academy and Busby?

Thanking you in advance.

Best wishes,  
Mattias Lantz
