c/o Secretary Anna.Liljeros@dom.se

Dear Sir,

On behalf of the Baltic Sea Regional Office of ECRR I would like to submit comments on case M 1333-11, SKB's application to build a spent nuclear fuel repository and associated facilities. As others have been given the opportunity to submit comments by and including 1 June 2012 I also request the opportunity to submit comments by that date. Considering the large volume of material it would however be advantageous if the deadline could be extended at least several months.

It would be much appreciated if you would confirm receipt of this request. Please respond via email to christo@greenaudit.org.

Thanking you,  
Chris Busby.
