Hi Michael and Claudio

Hope you are happy about the start-up meeting of the IRT in Stockholm. For your information the IRT press conference had a significant impact with brief vocal and written reports in national radio, a large number of news papers and the web (incl. national TV).

Olle Olsson informed me that both the site and methods selection reports now are available on their web site (SKB R-11-07 and SKB P-10-47). The top documents will be available by mid june.

Olle also asked me for the NEA questionnaire. In order to keep things transparent please make sure that all requests for information and other communication with SKB goes through SSM. As indicated in the ToR Karin Olofsson will be your point of contact at SSM in these matters. To start with, please send Karin the questionnaire with the standard set of questions. She will file the document at SSM and then forward it to SKB.

Finally we need to think about practical issues regarding the hearing. To start with it would be good to set dates as soon as possible. We also need to agree on participation and other arrangements like field trips etc. Regarding participation, my proposal is that we invite representatives from the organisations most directly involved in the licensing review (the concerned municipalities, the ministry, NGO:s with funding from the nuclear waste fund, the National Council for Nuclear Waste) to participate as observers (only). To make the meeting practically manageable we need to restrict participation to one representative from each organization. SSM will also participate with a few observers.

Best regards  
Björn
