Hi Claudio

Thank you for the third set of questions to SKB. Thank you also for the preliminary hearing-week schedule. It looks fine, but if it is possible it would be good to know beforehand if you expect to continue the hearing on Thursday (morning, afternoon or all day) as soon as possible because it is a considerable cost to reserve a meeting room for 50 persons if it isn't to be used. Furthermore, in order to make more definitive plans for the field trips we (and in particular SKB) need more precise information on what the experts expect to learn about Forsmark, Äspö, the bentonite lab and the canister lab, respectively (do you expect broad overview presentations and round trips or are you looking for in-depth information about particular experiments etc). Finally, I would just like to mention that our main option for achieving openness during the hearing is web streaming. Our communications expert David Persson is looking into the details of this and will be responsible for promoting the hearing.

Best regards

Björn

Ämne: SR Site Review - Third Questionnaire OECD NEA IRT

Dear Björn

Enclosed please find the IRT's third questionnaire. The IRT would like to receive answers by November 8 2011, if possible.

With kind regards

Claudio Pescatore
