Dear Karin,

Please forward this to the NEA IRT.

SKB has in accordance with the request put forward by IRT made an allocation of issues to be discussed between the hearing in Stockholm and the site visits on Wednesday. An allocation of issues have also been made to the specific sessions in accordance with the original schedule put forth by the IRT.

We have prepared short presentations (approximately 10 minutes) in response to each example question. We propose that discussion on each example question is initiated by these presentations. The presentations should provide a start for discussions and sufficient time for follow up questions.

We will shortly also provide you with programems for the site visits on Wednesday.

If you prefer a different set-up of the meeting please let us know.

Best regards

Olle Olsson
