Dear Björn,

We have identified minor errors in the SR-Site Main Report and in some of the background reports. We have also made corrections according to suggestions by NEA IRT in their third questionnaire. Corrected pages in the main report are enclosed. In addition, typographical and grammatical changes have been made throughout the report.

Errors have also been corrected in the following reports:

| | | | |
|----------|----------|----------|----------|
| R-09-19 | TR-10-02 | TR-10-23 | TR-10-52 |
| R-10-28 | TR-10-03 | TR-10-47 | TR-10-53 |
| R-10-48 | TR-10-07 | TR-10-48 | TR-10-67 |
| TR-10-09 | TR-10-49 | | |

The updated versions of these reports and TR-11-01 can be downloaded from the SKB website. An updated report can be identified through the date given on the title page, which should be 2011-10, and the name of the downloadable file.

Correction pages will be sent to those who have obtained the reports by mail from SKB. Correction pages can be ordered by sending a request to document@skb.se.

I would appreciate if you can forward this message to the NEA IRT.

Best regards

Olle Olsson
